PC8500

Zero-Gravity Recliner

WHY DEFY GRAVITY?

The **ZERO-GRAVITY POSITION** cradles your back and elevates your legs above your heart, the position doctors recommend as the healthiest way to sit.

- Relaxes and rejuvenates the spine by naturally decompressing the vertebrae
- Relieves muscle tension, soreness and fatigue
- Elevates the legs above the heart, improving circulation and blood-oxygen levels
- Helps expand lung capacity, allowing for deeper, more relaxed breathing

Surrender Into **RELAXATION**

Meet the newest introduction to the Perfect Chair® collection, the PC-8500. With its unprecedented range of motion, it provides more recline positions than any other chair. Like all of our Perfect Chair recliners, the PC-8500 has a smooth power recline transcending you into the precise doctor-recommended neutral posture position we call ZeroG®.

The breakthrough feature unique to the PC-8500 is the PROZero™ mode that reclines you into a deeper relaxation position beyond ZeroG, improving circulation and relieving muscle tension, soreness and fatigue. Only the precision-crafted PC-8500 takes wellness and comfort to the next degree to further ease pressure off the spine and elevate your legs to a higher level.

PERFORMANCE TWEED FABRIC

PROTECTION against stains for extra durability and easy care.

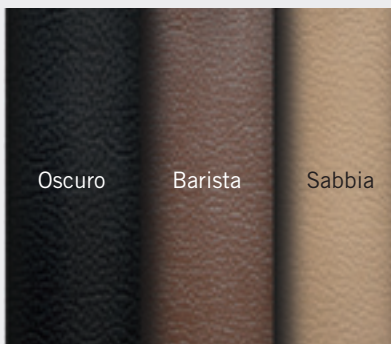

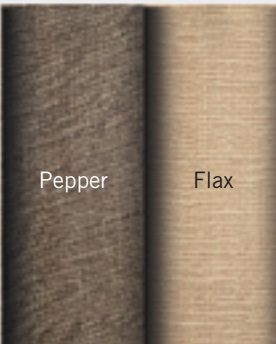

COMFORTABLE soft woven fibers interlaced to provide perfect support.

PERFORMANCE enhanced breathable fabric helps maintain comfortable body temperature.

DESIGN rich in elegance for modern luxury living.

Performance Tweed

Top-Grain Leather

“The chair's perfect. It just is. It will change your life. I think that it is truly revolutionary, and I also believe that five years from now, everybody will own one.”

DAVID MARCARIAN
 President of Precision Biometrics
 Human Touch® Wellness Authority

AN UNPRECEDENTED RANGE OF MOTION

With one motor to recline, and another to elevate your legs, you choose the right angle for you. Once you find yourself in the ultimate position, add it to one of two memory settings for perfect, customized comfort every time you sit down.

ZERO-GRAVITY POSITION

REAL ZERO-GRAVITY

Only the precision-crafted PC-8500 takes wellness and comfort to the next degree to further ease pressure on the spine in zero-gravity. The PC-8500's unique **PROZero** mode elevates the feet above the head to improve circulation with an extended range of motion to deliver added benefits.

Zero-Gravity

The neutral-posture position designed to relieve muscle tension, improve blood circulation, and decompress the spine.

PROZero Mode

Go **BEYOND** zero-gravity to experience an unprecedented range of motion of recline and elevated leg positions.
