

**ht** 2620

Welcome to the perfect fit for your body, budget, schedule and style.

The Human Touch® HT-2620 is not your grandfather's old massage chair (as much as he wishes it were). In just 15 minutes per day, this stylish, technologically advanced chair expertly melts away the tension and stress of everyday life, alleviating back pain, improving relaxation and soothing sore muscles.

Grab a seat and let the patented Human Touch Massage System do what it does best—replicate the therapeutic massage techniques used by back and spinal care professionals. The HT-2620 follows the contour of the spine to provide a targeted, effective massage once available only in chairs twice its cost. While it may not cost a fortune, its luxurious SofSuede™ upholstery looks and feels like a million bucks. So discover the HT-2620 and enjoy a beautiful massage from a beautiful chair.

More Features For More Comfort

MASSAGE CONTROLLER – It's all at your fingertips

Features your couch can only dream of

There's a reason the HT-2620 is the most popular piece of furniture in any room. In fact, there are many reasons. These advanced, fashion-forward chairs are loaded with the things dreams are made of. Or should we say – sweet dreams.

3 INVIGORATING AUTO-MASSAGE PROGRAMS

Choose from three massage programs-find the one that best suits your needs at the moment. You can select from the following options: Refresh your entire back, relieve your neck and shoulders, or release your lower back.

4 PROFESSIONAL MASSAGE TECHNIQUES

Target any of the four expert massage techniques to your back's own trouble spots, for powerful, therapeutic relief. Massage techniques include Rolling, Kneading, Compression and Percussion.

POWER RECLINE

Push a button and gently ease backward a nearly horizontal 165-degree angle, for perfect comfort and massage.

REMOVABLE MASSAGE-SOFTENING PAD

Need a deep, penetrating massage to soothe aching muscles? Or maybe just a light, invigorating massage? Easily control your massage intensity with the removable massage-softening pad.
