**HT-CONNECT™**

HT-Connect™ is a revolutionary interface that lets you customize your Human Touch massage chair to your own personal wellness needs, allowing you to feel better everywhere using your iPhone, iPod touch, or iPad. HT-Connect remembers who you are and your favorite settings to let you wirelessly control the AcuTouch™ 9500.

**ELEVATING AND EXTENDABLE FOOT & CALF MASSAGING OTTOMAN**

It's critical to massage the calves in an upward, rolling or wave-like fashion. This motion forces blood away from the feet and toward the core of the body, allowing fresh, nutrient-rich blood to re-enter the calves and feet for greater healing and soothing comfort.

**ACUPOINT® DETECTION SYSTEM**

To ensure an effective and targeted massage, our Acupoint® Detection System scans the entire length of the back, mapping key pressure points to target during your customized massage.

**DUAL-LUMBAR BACK HEAT**

Heat encourages blood vessels to expand, rushing nutrient-rich blood to the sore or tense areas to promote healing. Two lumbar heat modules gently warm the lower back muscles, gradually reducing tightness and pain.
