

the art of style

Our trend-setting team of designers continually introduce new colors, new styles, and new fabrics, because we know it's not enough that our products provide the most effective Robotic Massage® on the market. To deserve a place in your environment, our chairs must be great looking as well as therapeutic.

It's our way of saying we understand what you want.

the science of comfort

Everyone likes to feel good. At **Interactive Health®**, it's all we think about.

Our team of scientists, researchers, and engineers analyze the treatments used by massage therapists, chiropractors, and physicians, and turn those techniques into the sophisticated **Human Touch Technology®** mechanisms that animate our family of chairs. By building on our decades of experience as the world leader in massage technology, we consistently produce the most advanced Robotic Massage® systems ever devised.

Specifications

Style:	HT-270	Chair Reclined Dimensions:	71"L x 28"W x 24"H
Product Description:	Human Touch™ Robotic Massage® Chair	Chair Upright Dimensions:	44"L x 28"W x 45"H
		Weight Product Lbs:	178 lbs
Volt AC:	120	Master Carton Quantity:	1 Unit
AMP/Watt:	75/90	Master Carton Dimension :	63.4"L x 30.3"W x 27"H
Regulatory Certification:	cETL	Master Carton Cube:	30'
Recline Angle:	120-175 Degrees	Weight Shipping Lbs:	196 lbs
Massage Head Storage:	Top	Container Quantity (40 Foot):	66 Units
Automatic Timer Shut-Off:	15 minutes	Truckload Quantity (53 Foot):	96 units
Total Massage Stroke Length:	21"	Shipping Method:	Common Carrier
Upholstery Material:	Leather/Leather Match Vinyl	Shipped From:	FOB Long Beach, CA, USA
Armrests Material:	Leather/Leather Match Vinyl	Country of Origin:	P.R.C.
Massage Robot:	Human Touch Technology®	Warranty:	3 Year Limited Warranty
	Robotic Massage®	Included:	Massage Softening Pad, Use and Care Manual
	Dual Motor, Quad Roller

Human TOUCH HT-270
ROBOTIC MASSAGE CHAIR

experience the human touch™

meet your **personal** masseuse

Beneath this luxurious leather are the “hands” of a trained massage professional – ready to provide you with a customized back, leg, and foot massage at the touch of a button.

You have to feel it to believe it.

Our multi-patent **Human Touch Technology®** massage system so closely replicates the therapeutic techniques used by back and spinal care professionals that it is the preferred technology of the American College of Chiropractic Orthopedists. It is designed to follow the natural contour of your spine, and move three-dimensionally in four different modes.

Your 24/7 Personal Robotic Masseuse

HT-270 does what you tell it, from the ergonomic headrest to the rotating calf and foot massager. You customize each movement to your own preference. The remote controller has an individual programmed massage session lasting 15 minutes.

Discover the ultimate in Robotic Massage®, wrapped up in a stylish, superior quality exterior that is virtually maintenance free.

Rotating Multi-Speed Foot & Calf Massager
Feels like strong hands providing a powerful three-dimensional massage for your calves and feet.

Full-Body Stretching
The footrest wells will gently hold your legs as the chair arches your back in a gentle body stretch.

the science of **comfort.**

- Full-Body Stretching
- Penetrating Neck Massage
- Back Massage Programs
- Foot Massage Programs
- Multi-Speed Massaging
- Auto-Restore to Start Position
- Comfort Settings for Height and Width

Human Touch Technology® starts with a patented mechanism that works like “wrists and arms.” We added “hands” -- massage rollers that move three-dimensionally on a curved track. The result is a Robotic Massage® that feels remarkably human.

Rolling: Feels like the gentle hands of a massage therapist, pressing firmly on one side of your spine, then the other. It relieves tension and loosens the muscles to prepare your back for deeper massage.

Kneading: Feels like thumbs pressing firmly in a circular motion on both sides of the spine. This therapeutic motion goes deeper, lifting and stretching muscles to improve circulation.

Kneading + Percussion: In this function, both motors are employed to give you a vigorous deep-tissue massage. This is the most intense, aggressive massage available.

Compression: (HTT™ exclusive) Feels like the heels of a professional therapist’s hands firmly pushing on muscles alongside your spine, and inward toward the spine itself. This mode aids in improving mobility and posture.

Percussion: Feels like fists or the edge of hands rapidly tapping on your back muscles. This is the deep muscle therapy popular in sports medicine. It flexes spinal joints, relieves pressure, and invigorates your entire back.

Functions

Rolling:	1 speed
Kneading:	1 program, 2 speeds
Kneading + Percussion:	1 program, 2 speeds
Compression:	2 speeds
Percussion:	1 program, 2 speeds
Adjustability:	2 options
Height:	3 height levels
Width:	3 widths
Adjust Manual Up/Down:	Manually moves massage rollers to desired location for kneading, compression and percussion
Programmed Massage Session:	3 invigorating 15 minute pre-programmed massage sessions
Backrest:	Power recline
Calf & Foot Massager:	2 speeds, 1 program/power recline
Stop/Auto Park:	Stops all massage functions and parks the massage rollers in their highest position
Auto Restore	Stops all massage functions and restores backrest and footrest to upright position
