

# HTT-10CRP

Robotic Massage™ Chair

The HTT-10CRP is not just a beautiful chair. Just beneath the surface is its heart, a technology so refined and so real that the moment you experience it you will know its power. It's called Human Touch Technology®, the most advanced robotic massage system ever made. At the push of a button this chair will awaken your senses, heal

your body and replenish your soul. The curve track massage mechanism is designed to follow the natural s-curve contour of your spine and offers an enhanced massage in the cervical and lumbar region.

*Available in Black or Cream*

## *The science of comfort.*

The HTT-10 CRP is the culmination of years of research and development which has led to this extraordinary system that emulates techniques used by massage and chiropractic professionals for back and spinal care.

Human Touch Technology starts with a multi-patent pending mechanism that works like "wrists and arms."

"The hands" - massage discs move three-dimensionally to approximate the human touch.

*The Rotating calf and foot massage footrest.*

*"HTT" is the preferred technology of the ACCO.*

## Four massage functions to choose from.

Our researchers carefully studied techniques used by massage therapists, chiropractors, physicians and other healthcare professionals to develop the most effective massage functions.

### **Compression**

*A unique combination of alternating strokes and pressing on the paraspinal muscles.*

### **Rolling**

*Feel the tension dissolve with the gentle rolling massage.*

*Select massage functions with the touch of a button.*

### **Kneading**

*Ease soreness and work out the "knots" with a deep kneading massage.*

### **Percussion**

*Feel invigorated by the sensation of hands rapidly tapping on your back muscles.*
