

**HTT-10i CRP**  
**Robotic Massage<sup>®</sup> Chair**

*The Rotating calf and foot massage footrest massages your calves or your feet.*

***The science of comfort.***

The HTT-10i CRP is the culmination of years of research and development which has led to this extraordinary system that emulates techniques used by massage and chiropractic professionals for back and spinal care.

Human Touch Technology<sup>®</sup> starts with a multi-patent and patents pending mechanism that works like "wrists and arms".

"The hands" - massage discs move three-dimensionally to approximate the human touch.

***Exclusive features***

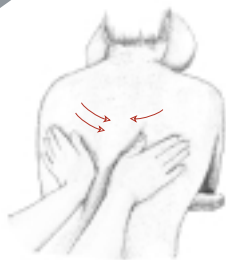

- **Human Touch Technology<sup>®</sup>** - the most advanced robotic massage system available.
- **Curve Track** is designed to follow the natural S-curved contour of your spine and offers an enhanced massage in the cervical and lumbar region.
- **4 Massage Functions** including Rolling, Kneading, Compression, and Percussion in multiple speeds.
- **2 Programmed Sessions** allow you to sit back, relax and enjoy one of two individual 15 minute pre-programmed massage sessions with the touch of a button.
- **Power Recline** allows you to adjust the back of the chair with the hand-held controller.
- **Rotating - Robotic Calf & Foot Massage System** has 2 speeds and 1 program mode.
- **Adjustable Height** for the length of the massage stroke for normal and tall heights.
- **Luxurious Leather** on the seat and back cushion.
- **Hand Polished Solid Wood Armrests and Base.**
- **Ergonomic designed headrest.**
- **Range Control** to customize the location of the kneading and compression functions.
- **Rugged construction** and virtually maintenance-free.

"HTT" is the preferred  
technology of the ACCO.

#### Compression

*The massage modality that is only available with HTT is the one doctors use most for spinal and back treatment. Its unique combination of alternating strokes and pressing on the paraspinal muscles can help improve mobility, flexibility and overall posture. The compression mode also "rocks" your body, taking you to a more relaxed state of mind.*

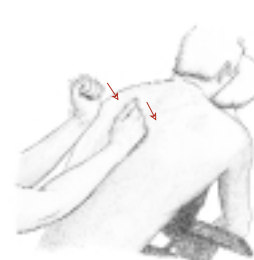

#### Rolling

*Feel the tension dissolve with the gentle rolling massage. Rolling delivers the same benefits as effleurage, the first part of a massage performed by a professional therapist. It warms up and loosens the muscles to prepare your back for a deeper therapeutic massage.*

#### Kneading

*Ease soreness and work out the "knots" with a deep kneading massage. Slightly more intense than rolling, the circular motion of the kneading function lifts and stretches back muscles, improving circulation and bringing vital nutrients to the spinal area.*

#### Percussion

*Feel invigorated by the sensation of hands rapidly tapping on your back muscles. The percussion massage deepens the level of relaxation and helps replenish energy.*

## Functions

Rolling:	3 speeds
Kneading:	2 speeds
Compression:	2 speeds
Percussion:	2 speeds
Range Controls:	2 functions
Adjust Manual Up/Down:	For Kneading, Compression and Percussion
Programmed Massage Session:	A: Invigorating (15 min. total program) B: Relaxing (15 min. total program)
Backrest:	Power Recline
Calf & Foot Massager:	2 speeds, 1 program
Shoulder Height:	Tall/Normal

## Specifications

Operating Voltage:	110/120 V ~ 60 Hz (Ground)
Power Consumption:	90 Watts
Approval:	cETL
Size:	Chair (reclined) 29"W x 56"L x 32"H
Weight:	145 Lbs.
Recline Angle:	110 - 145 Degrees
Rotation (Swivel) Angle:	Swivel 60 Degrees (left to right)
Number of Massage Functions:	Four (4)
Programmed Function:	2 Individual Programs
Massage Head Storage:	Top
Automatic Timer Shut-Off:	15 minutes (approx.)
Total Massage Stroke Length:	17 / 20 Inches
Cover Fabric Material:	Leather and leather match
Warranty:	Limited three-year warranty
Included:	Handheld Remote Control Massage Softening Pad
