

the **art** of style

Our trend-setting team of designers continually introduces new colors, new styles, and new fabrics, because we know it's not enough that our products provide the most effective Robotic Massage® on the market. To deserve a place in your environment, our chairs must be great looking as well as therapeutic.

It's our way of saying we understand what you want.

the **science** of comfort

Everyone likes to feel good. At **Interactive Health®**, it's all we think about.

Our team of scientists, researchers, and engineers analyze the treatments used by massage therapists, chiropractors, and physicians, and turn those techniques into the sophisticated **Human Touch Technology®** mechanisms that animate our family of chairs. By building on our decades of experience as the world leader in massage technology, we consistently produce the most advanced Robotic Massage® systems ever devised.

Specifications

Style:	iJoy™100	Chair Reclined Dimensions:	46.5"L x 27"W x 24"H
Product Description:	iJoy™ Robotic Massage® Chair	Chair Upright Dimensions:	41"L x 27"W x 31"H
		Weight Product Lbs:	75 lbs
Volt AC:	120	Master Carton Quantity:	1 Unit
AMP/Watt:	.58/70	Master Carton Dimensions:	31.5"L x 28"W x 21.25"H
Regulatory Certification:	cETL	Master Carton Cube:	11.7'
Recline Angle:	115/150 Degrees	Weight Shipping Lbs:	93 lbs
Massage Head Storage:	Top	Container Quantity (40 Foot):	176 Units
Automatic Timer Shut-Off:	15 minutes	Truckload Quantity (53 Foot):	252 Units
Total Massage Stroke Length:	20"	Shipping Method:	UPS
Upholstery Material:	Brushed Polyester/Nylon Mesh	Shipped From:	FOB Long Beach, CA, USA
Massage Robot:	Human Touch Technology® Robotic Massage® Quad Rollers	Country of Origin:	P.R.C.
		Warranty:	1 Year Limited Warranty
		Included:	Massage Softening Pad, Use and Care Manual

meet your new **best friend.**

iJoy™ 100
LIVE. PLAY. RELAX.

Inside every iJoy™ Robotic Massage® Chair are the “hands” of a trained massage professional – just waiting to provide you with a soothing back massage. But don’t take our word for it. Sit down in one.

Our multi-patent **Human Touch Technology®** massage system so closely replicates the therapeutic techniques used by back and spinal care professionals that it is the preferred technology of the American College of Chiropractic Orthopedists. It is designed to follow the natural contour of your spine, and move three-dimensionally in four different modes.

iJoy™ 100 does what you tell it. Each of four powerful massage modes can be programmed to give you the touch you prefer. The controller has three different programmed massage sessions of 15 minutes, which means you can kick back and enjoy a programmed massage whenever you feel like it.

Ottoman 2.0™ sold separately

Human Touch Technology® starts with a patented mechanism that works like “wrists and arms”. We added “hands”-- massage rollers that move three-dimensionally on a straight track. The result is a Robotic Massage® that feels remarkably human.

Rolling

Feels like the gentle hands of a massage therapist, pressing firmly on one side of your spine, then the other. It relieves tension and loosens the muscles to prepare your back for deeper massage.

Kneading

Feels like thumbs pressing firmly in a circular motion on both sides of the spine. This therapeutic motion goes deeper, lifting and stretching muscles to improve circulation.

Compression

(HTT™ exclusive) Feels like the heels of a professional therapist's hands firmly pushing on muscles alongside your spine, and inward toward the spine itself. This mode aids in improving mobility and posture.

Percussion

Feels like fists or the edge of hands rapidly tapping on your back muscles. This is the deep muscle therapy popular in sports medicine. It flexes spinal joints, relieves pressure, and invigorates your entire back.

Functions:

Rolling:	1-Speed
Kneading:	1-Speed
Compression:	1-Speed
Percussion:	1-Speed
Range Control:	Partial massage stroke 3" up & down for kneading or compression
Position Manual Up/Down:	Manually moves massage rollers to desired location for kneading, compression and percussion
Backrest:	Manual recline
Stop/Auto Park:	Stops all massage functions and parks the massage rollers in their highest position

Programmed Massage Sessions:

- Full: 15 minute program-Series of combined functions for your entire back
- Upper: 15 minute program-Series of combined functions for your upper back
- Lower: 15 minute program-Series of combined functions for your lower back
